

Graduate Engineers

Blackburn Head Office/ Nationwide

Vital Energi works in the exciting new and rapidly expanding energy market, designing, operating and even financing schemes for the generation and distribution of Heat, Cooling and Power Solutions utilising advanced sustainable and renewable technologies. The Company boasts the longest standing project references in the UK as well as some of the most prestigious projects in the UK and is regularly cited to be the Leader in its field.

The company has grown by an average of 28% year on year over the past nine years and is set to increase its past rate of expansion to meet future demand. Over the past 3 years of recession the company has grown its staff numbers by over 60% and places huge importance upon the recruitment and development of talent.

Following last year's successful graduate recruitment and to continue to meet the increased demand for its services, we are now looking to recruit further [Graduate Engineers](#) for all areas of the business, including but not limited to:

- o Design
- o Energy Solutions
- o Project Engineering (site based throughout the UK)
- o Asset Management (specifically Metering & Billing and Operations & Maintenance)
- o We would also consider individuals who have recently completed their A-levels (or similar qualifications) to work in the Estimating division.

We are interested in hearing from anyone who has completed an Engineering degree (preferably Masters) or similar qualification in mechanical engineering, renewable energy, building services, electrical or similar.

This is an exciting opportunity and Vital Energi Utilities Ltd are looking for enthusiastic, intelligent, hardworking individuals to join our experienced teams who will develop, train and support them in their personal and career development.

First stage candidates will be invited to attend an 'open day' where they will participate in team exercises, presentations and undertake a formal interview. The final successful candidates will be selected on completion of this process.

Location: All positions based at our Head Office in Blackburn, excluding the Project Engineers who will be based nationwide.

Salary: Dependent on experience

Closing Date: **16th September 2011**

NO AGENCIES

The company is opposed to all forms of discrimination and will select for employment, training and promotion on the basis of suitability for the job and/ or merit. It is company policy that no job applicant or employee receives less favourable treatment than another on the grounds of sex, race, colour, age, ethnic or national origins, political affiliations, religious beliefs, marital status, physical disablement or is disadvantaged by unjustifiable conditions or requirements. Only applicants who are legally entitled to work in the UK and are currently resident in the UK are invited to apply.

If you feel that you have the relevant experience and personal qualities to join our team, please forward your CV, along with your current salary details/ expectations to:
